quantitative, as well as qualitative. For the propagation of the race, every family should contain at least four chilof the ship that waked us up. My hus

band knew something terrible had happened. My sister and her two little boys were travelling with us. MARRIAGE IS WOMAN'S NATU-"My husband jumped out of bed and picked up one of the children in his

"But you assume that every woman wishes to marry," I protested.
"It is her satural destiny," deciared Mrs. Martin. "I know that our girls are being brought up in ignorance of it. I know that they are toid it isn't 'nice' to think about such things, that they are expected to display the utmost surprise when, at the age of twenty-three or four, some young man asks such of and and ran up to the dock. We were all to our night clothes. "They were launching a boat and an officer put my elater into it. My hus-"But we are all wrong. Every girl ought to be taught from the beginning that she is expected to marry, just as every boy is taught that he ought to earn a living. Then the Government ought to take a hand, if necessary, and throw young men and women in each other's society, instead of allowing a surplus of each sex to congregate in different localities. With such matrimonial clearing-houses, the laws of natural selection would do the rest, and the future of the race be preserved." and crying, and there was plenty of room in the boat, so he stepped in beside me and sat down and put his arm around me. Then an officer-some one pointed a pistol at my husband and or-dered him out of the boat.
